Empowering teachers and administrators to recognize bullying related behavior trends and create and evaluate effective solutions.

The Problem

Bullying Statistics

- 30% of U.S. students have experienced bullying[1]
- 70-80% are affected at some time by bullying[1]
- Effects last into adulthood[1]
- Most prevalent in middle school[2]

2 Bullying researcher

Our Solution

Schoolview

- Enables teachers and administrators to gain insight into trends in negative student behavior
- Informs opportunities to intervene

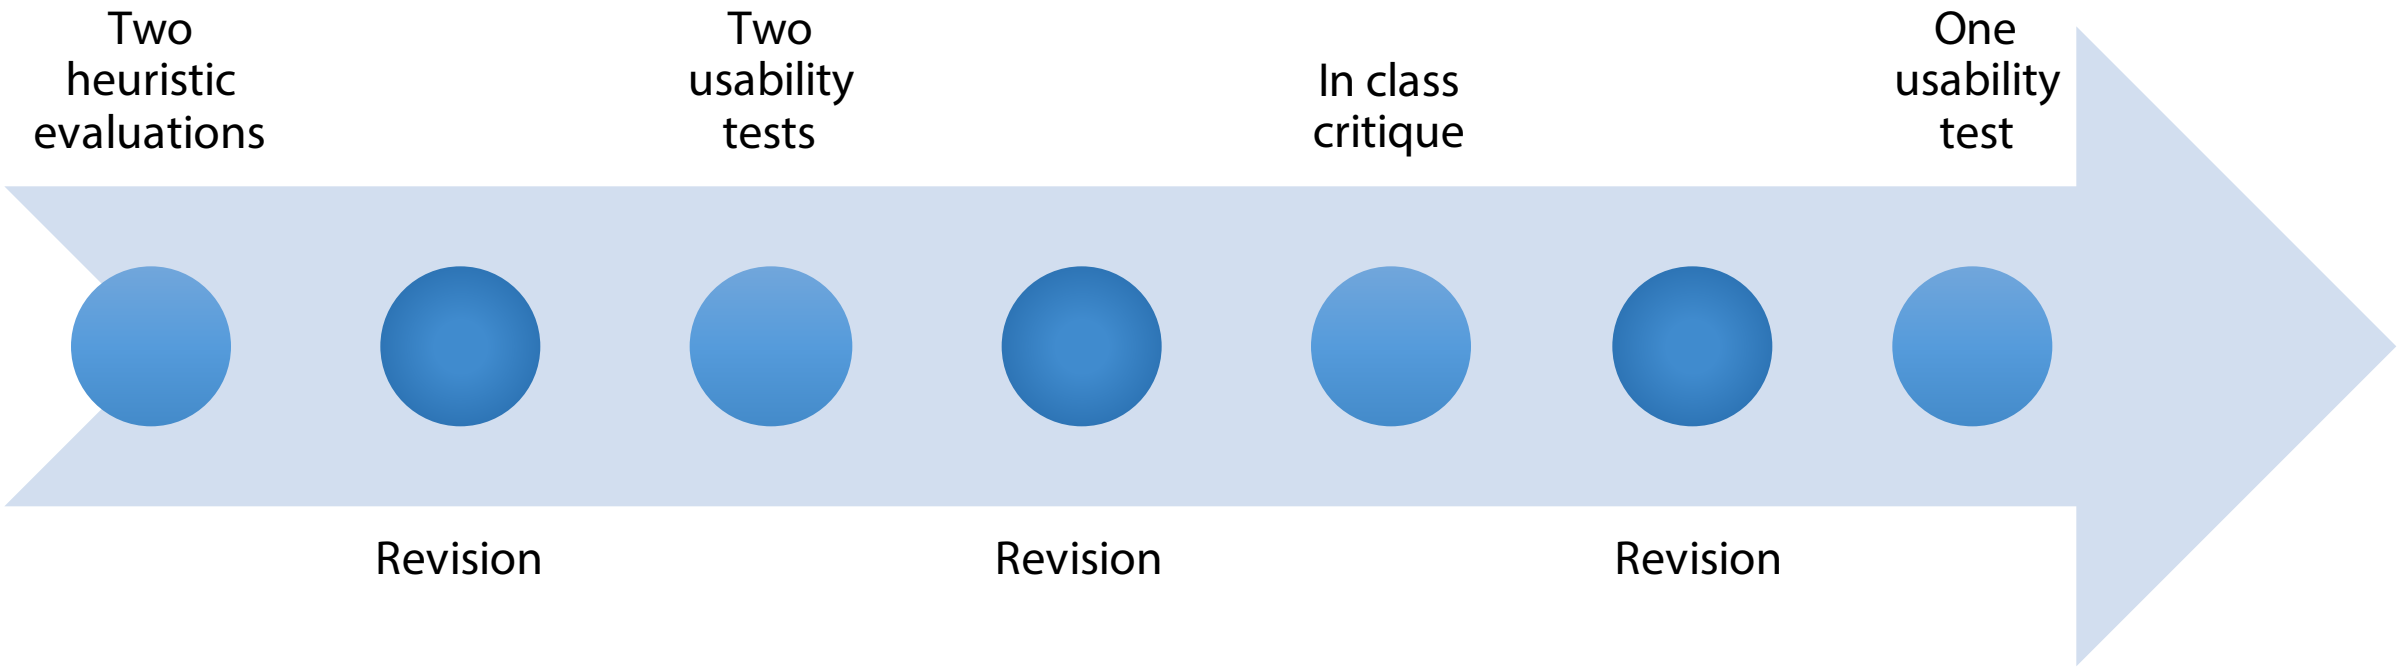
Testing

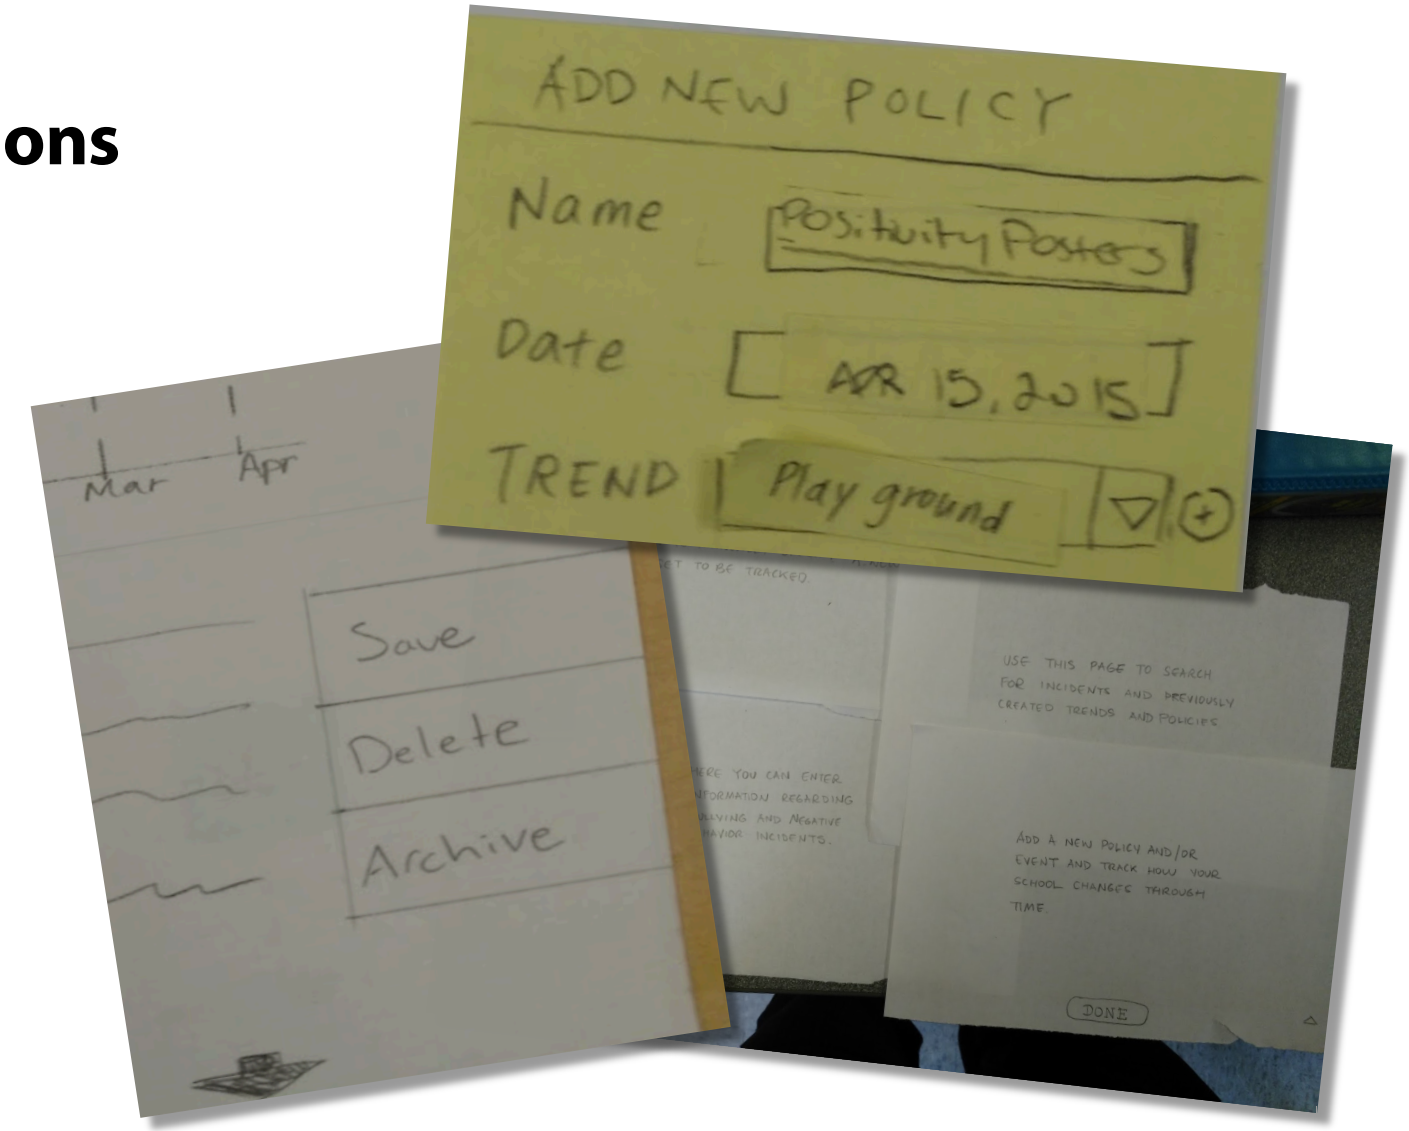
Testing: Process



Testing: Process

Heuristic Evaluation: Violations

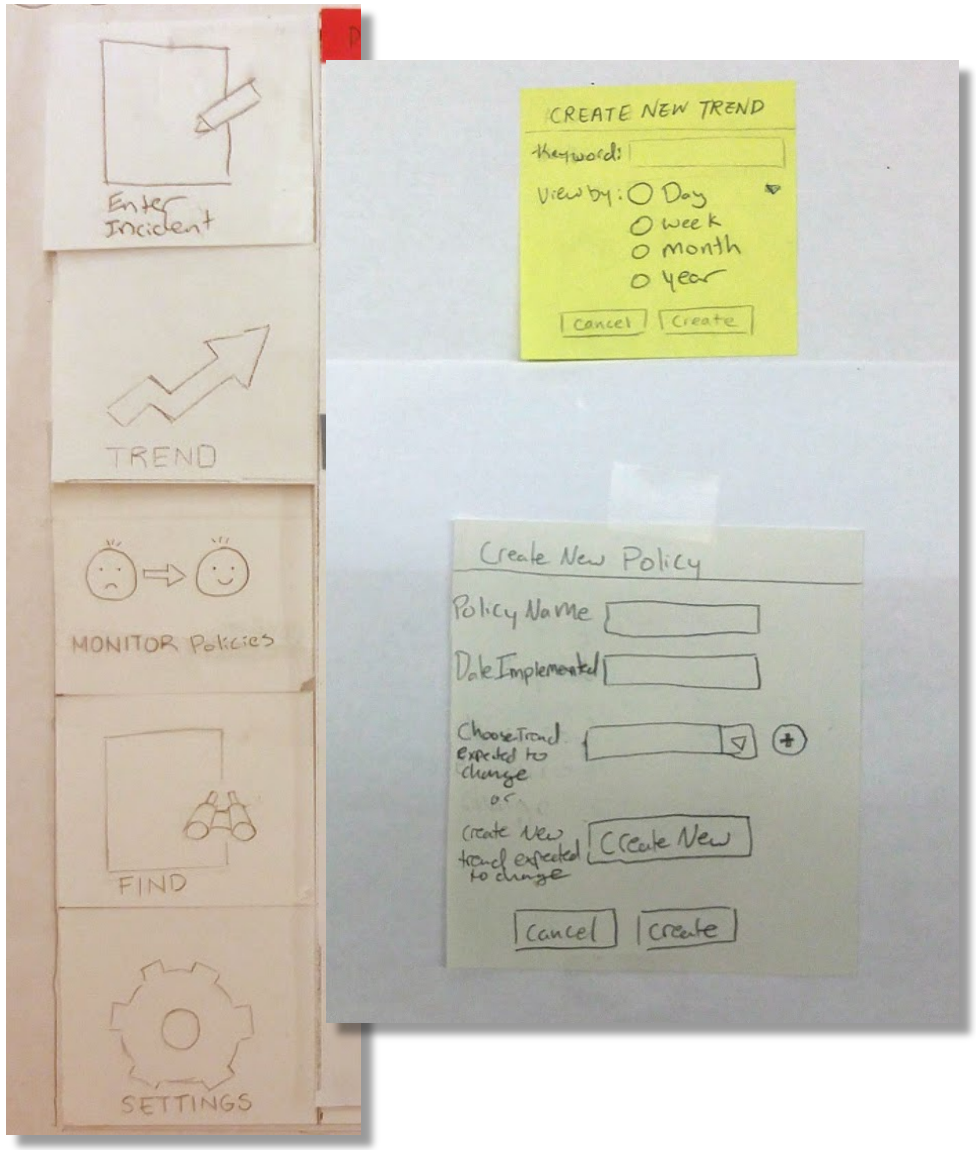
- Consistency and standards
- Help and documentation
- User control and freedom



Testing: Process

Usability Testing:
Participants and Process

- UW students
- Protocol refined over time
- Biggest problems: creation screens, navigation, tutorial comprehension



Testing: Results

Most significant changes

- Addition and refinement of tutorial
- Finalizing cohesion and vocabulary
  - Action buttons
  - Creation screens
  - Improving workflow
- Final usability test was very smooth

Reflections

Reflections

Lessons Learned

1. Design process: rewarding but challenging

2. Usability is related to, but is not aesthetics

Thank You
